Shared Efforts toward a more Sustainable Future

United Co. is part of a global community of businesses that meet high standards of social and environmental impact. Together with our members we are working towards a better future.

Environment - Sharing helps us to maximise resources and reduce our environmental footprint. Our purpose built shared workspace has a **5-star green energy rating and carbon neutral certification***. We encourage **alternative modes of transport**, utilise solar energy, greywater and water saving systems, eco-friendly cleaning products and have office recycling programs in place.

People - United Co. is an equal opportunity employer. We embrace a diverse workforce and are LGBTQ+ inclusive. We respect and support human rights and manage modern slavery risk in our supply chains. Our building is a fully **accessible workspace** accommodating those with visible and hidden disabilities. Light filled workspaces and green outdoor spaces are designed to improve your workday.

Community - We are committed to building a strong community and partner with **local suppliers** and providers who share our sustainability values. United Co. supports at-risk groups, not for profit organisations and startup businesses.

We recognise and acknowledge the traditional owners of the land we live and work on, the Boon Wurrung and Woiwurrung (Wurundjeri) peoples of the Kulin Nation. We appreciate their dedication to sustainability and sense of community. We pay respect to their Elders, past, present and emerging.

Our journey

started with our iconic Fitzroy building - designed by A and K Henderson - which started its life in 1932 as the British **United** Shoe Machinery **Company**. This building has been re-imagined to reflect the needs of a new generation of workers. We love that our story begins with this wonderful space and that we've been able to preserve a little of its history in our name - **United Co.**

United Co. was founded in 2018 as a result of two great loves, business and buildings. We appreciate the journey of a business, to watch it grow and develop amongst its setbacks and successes like we see character and potential in a heritage building with possibilities for the future.

We understand what businesses and their employees need around them, in order to be their best. We value sincerity and a genuine approach in business. This inspires us to create world-class facilities empowering entrepreneurs and businesses, supporting them in their **work/life journey**.
