Who says your office can't feel like home? Our coworking space is designed to be your home away from home—a comfortable, friendly place where you can be productive without the pressure of a corporate office. With cozy seating and a welcoming community, you'll find your focus and your people.

OUR VALUES

Community

We support our local businesses, talk to our neighbors, and strive to be a positive and active part of the Chinatown community.

Mutual Aid

Through our events, fundraisers and collective action, we promote a culture of collaborative support and solidarity in our community and beyond.

Sustainability

We use green products, and avoid plastics & single use items. Because recycling isn't effective.

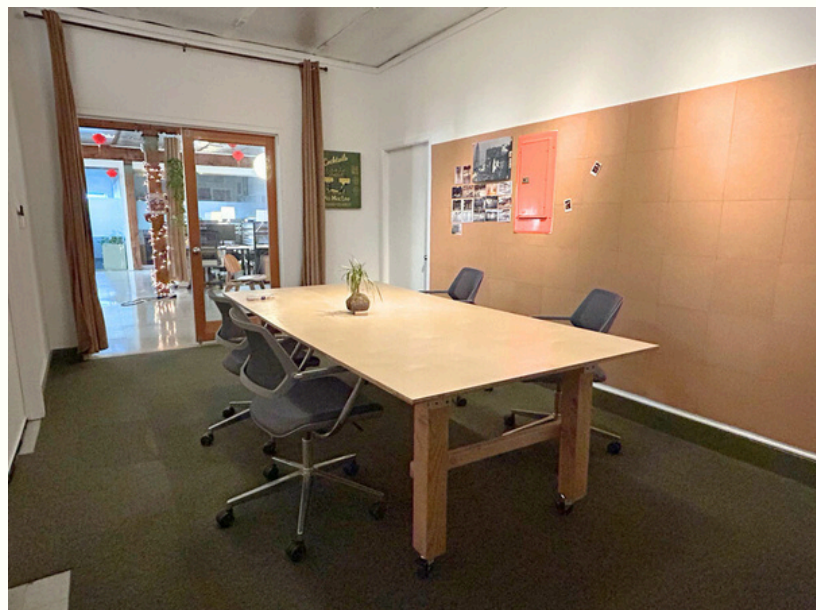

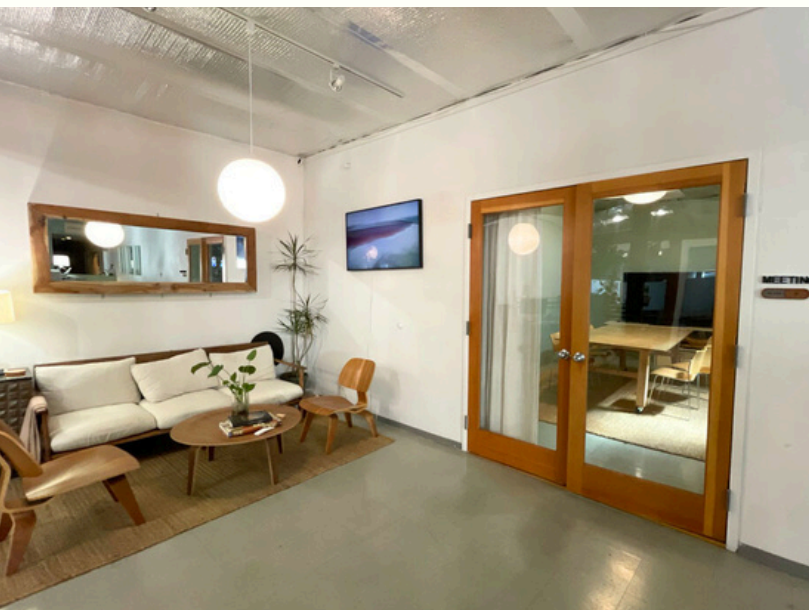

Inclusiveness

The diversity of our members and guests is what makes our space rich in cultural and human experiences.
