

Hour Space
a space that works for you

let's go.....

hello there, welcome to Hour Space

*where, it's more than just a desk.
It's your space to work well and live better.
~ your Third Place ~*

At Hour Space, we believe productivity doesn't have to come at the cost of peace of mind. Here, it's not about working harder — it's about working better, in an environment designed for clarity, comfort, and meaningful momentum.

Located just steps away from the Gateway of India and the Taj Hotel with a serene sea view you can enjoy right from our third-floor terrace.

Come in for a coffee, explore your rhythm, and experience coworking, the Hour Space way.

We'd love to have you here — and we hope you'll love it too.

feel good about where — and how — you work

A modern rooftop courtyard with a large mural of tropical plants on the left wall. The courtyard is filled with various green plants, including ferns and snake plants. In the center, there is a wooden table with two light green chairs and a small orange chair. The floor is decorated with a blue and white patterned tile design. A glass railing runs along the edge of the courtyard, and a blue mosaic tile border is visible along the base of the wall. The sky is clear and blue.

bringing nature to work
