MEMBER RECOMENDATIONS

"After working in several shared work spaces, I am happy to say Digital Ignition is like my **second home**. The comraderie, lead sharing, and brainstorming from all the different types of companies that call this space their office is incredible. Take all of that and add the dedication of the team running it and the devotion to being a valued part of the community makes Digital Ignition one in a million."

-Andrew
Transport Station

"What attracted me to Digital Ignition initially was the **open floor space** and **functional work areas**. I can be "heads down" and focused on my work, but also have enough room here to meet with individuals or have larger meetings in one of the conference rooms."

-Wes
