Make **ours** yours

### Professional Office Suite for rent (North Raleigh)

Opening an office doesn't have to be a bottomless pit when it comes to time and money. Choosing paint colors. What will it be? Mauve? Or canary yellow? What about office furniture? Buying a third-hand desk on Craigslist, finding cheap movers and asking your brother-in-law to help move in is time, energy and money you won't get back.

Then there's dealing with contractors, and trying to get the printers to work. How about having a secure, wireless network set up with support? Don't fall into this time-consuming, expensive hole. Leave the setup and maintenance of opening and managing an office to us, so you can focus on your business. Look at everything you get with an Office**Ours** Office Suite.

#### Choose from:

- The Professional Office Suite (1 to 2 people),
- The Executive Office Suite (2 to 4 people)
- The Large Office Suite (4 or more)

#### Our office suites include:
