What our members say about Patch

Matt, Member

"Ever since Patch came to my neighbourhood, my work life has transformed. I got my own desk and have made some really great new friends as a Resident. As a solo content freelancer, it can be tough being alone, but Patch has given me the work community I needed. I would be lost without Patch".

Helen, Member

"Working at Patch has been transformative. I previously worked at home, but coming in to the space has brought back the enjoyment of working for myself. I have met great people, made new friends, picked up new business, and restored my work/life balance".

Andrea, Member

"My team is all in different time zones and countries which means I have the flexibility to work from anywhere. So for me, Patch is a local base with a community feel that adds a bit of structure to my working week. Most of all, it's great to be part of a venture that supports and values local businesses!"

Casey, Member

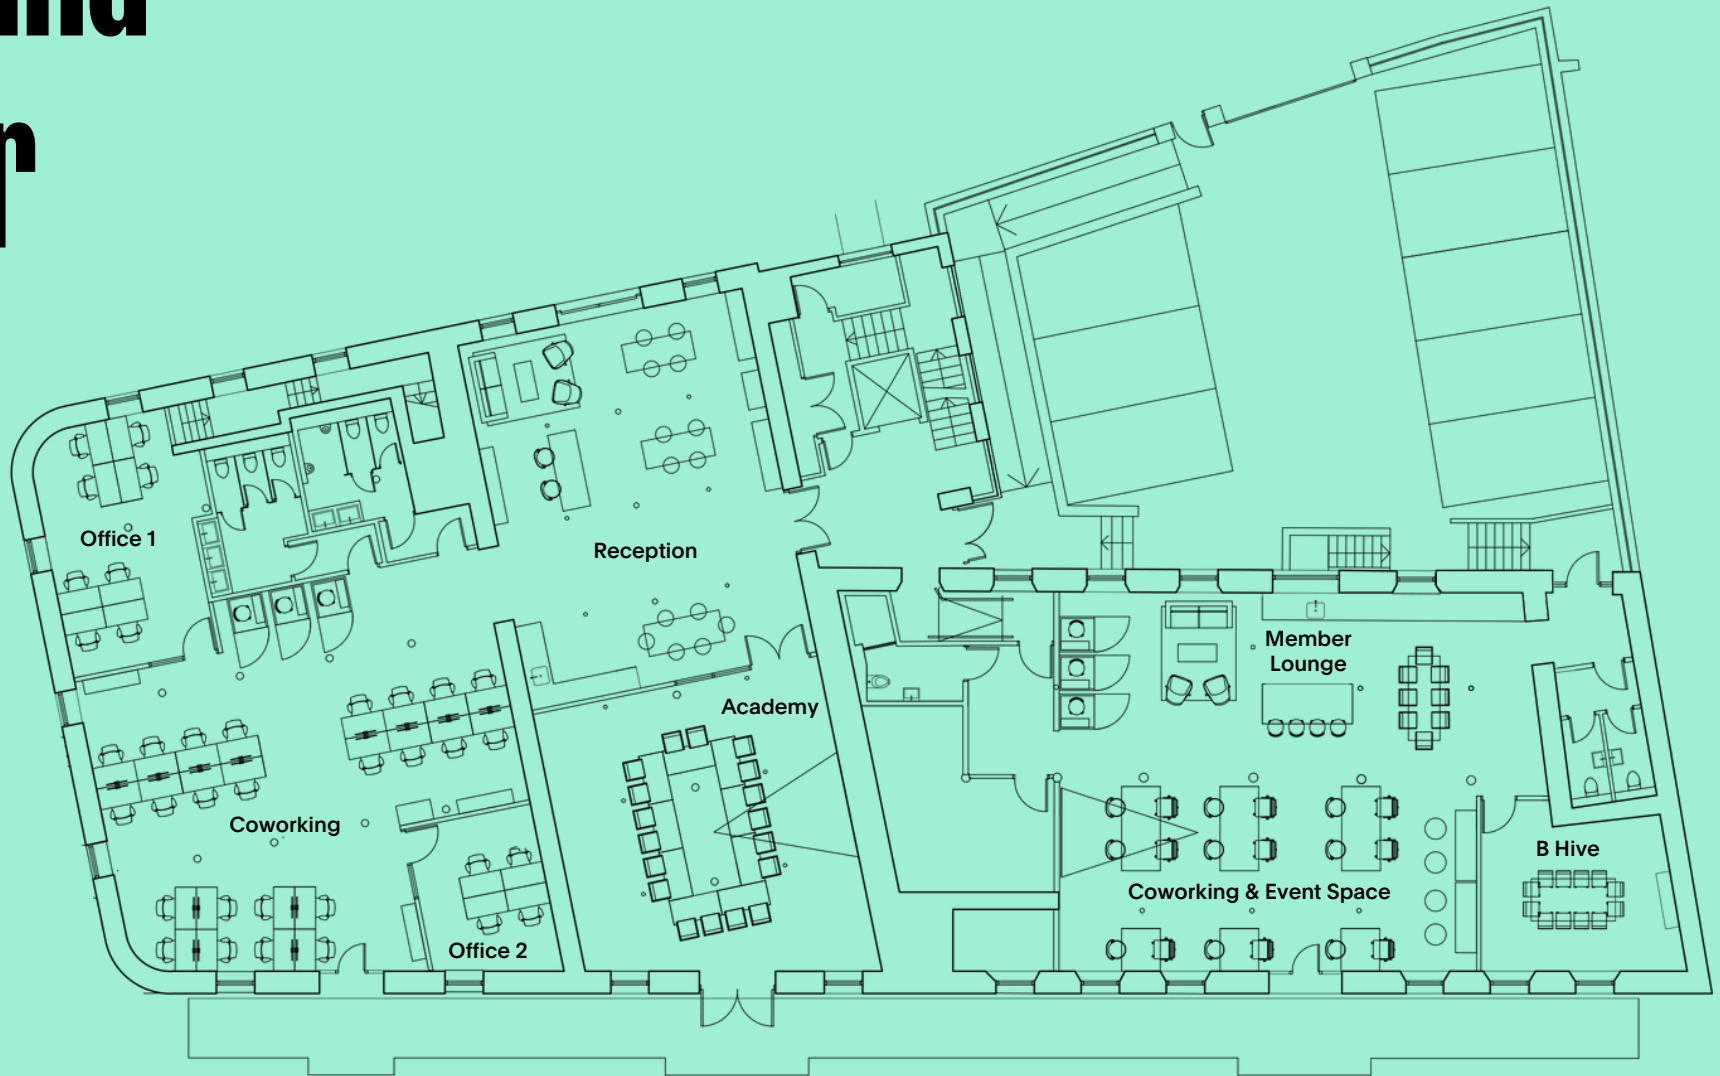

"I want to be a good dad and spend more time with my son. As CEO of a growing business, the biggest saving for me is my time. Patch is a more cost-effective alternative to London that provides a better atmosphere and opportunities, without the daily commute".
