ORAN PARK
Smart Work Hub

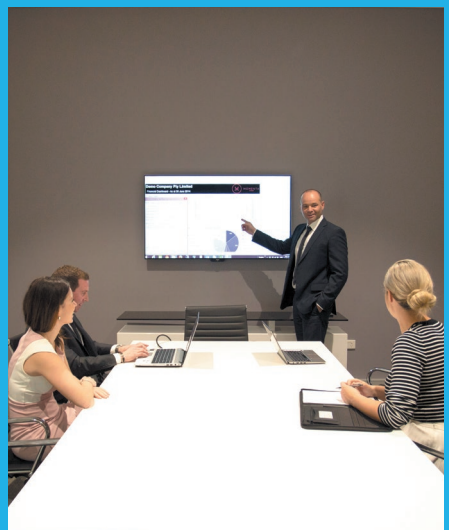

“It’s great to have a professional workspace so close to home.”

The Oran Park Smart Work Hub offers a modern workspace and professional network for locals. It’s an opportunity to swap the commute to work closer to home, or to connect with others growing businesses in the region.

The Smart Work Hub offers all the conveniences of a modern office - high speed internet, printing, meeting rooms, conferencing facilities, break out spaces, a mailing address and on site host - but in close proximity to home. It is a shared workspace with others from small businesses, government and corporate organisations utilising the facilities.

We offer flexible all-inclusive membership packages. There are no “hidden costs” with memberships.
