

# From startups to scaleups, we speak your language.

**THE GLOBE HUB** is an ecosystem for entrepreneurs both local and global. Here, you can expect to find synergies between providers offering legal and financial support, accounting, tech, print, and many other services. These businesses are in different phases of start-up, and we cultivate an environment in which they are available to help each other scale.

The Globe Hub is agnostic to what many types of ventures entrepreneurs want to get started. We support ethical business opportunities, and strive to help non-tech entrepreneurs by providing a strong tech support team and community.

The Globe Hub also supports fin-tech, and is an early entrant in Atlanta in the space of educating

entrepreneurs on crypto-currency and block-chain methodology. We encourage conducting experiments in crypto mining and support early-stage startups in exploring opportunities in ICOs.

The Globe Hub exists to inspire entrepreneurs to follow their passion, to make decisions with velocity and to fail fast. Our environment is designed to help you scale up rapidly, take flight, and marginalize risk through our strong support structures, resident entrepreneurs, and professional services.

Our mission is to connect the world to us. We ignite relationships and provide a safe and secure platform for members to think locally and globally when designing their business models.

*We're centrally located in Atlanta, a booming metro known for its music and restaurant scenes, and recently ranked as a Top 5 U.S. city for start-ups and tech talent, as well as a global leader in fintech.*
