## WHY US?

### **Activated Community**

We're always asking "How can we help"?

### **Curation**

Do you consider yourself an entrepreneur, creator, artist, builder, maker, doer? Do you want to be a part of a community of people selected because they "Get it"? This might be the space for you.

### **Space**

TechArtista is a space built for co-working. Housed inside an original Pierce-Arrow car company building, we help our members take an idea from conception to reality and beyond.
